

COVID-19 NOTICE:

We are currently open and operating normally.

Dear Patient,

We hope that this finds you and your family healthy. With the recent surge in Covid-19 cases and CDC recommendations regarding mask wearing, we wanted to share our current policies.

Per CDC guidelines for healthcare settings, Total Body Physical Therapy will continue to require mask wearing for all staff and patients, regardless of an individual's vaccination status. We are also continuing to take all the steps necessary to ensure the highest level of sanitization and cleanliness in the clinic space.

You can read more about the CDC recommendations [here](#).

If you have any questions, please call 941-203-8705.

Thank you for allowing us to help you on your journey to better health!

Best Wishes,

Dr. Lisa Johnson and the Amazing Staff
Total Body Physical Therapy
